

## Social Responsibility: Building Relationships

Students develop and maintain diverse, positive peer and intergenerational relationships in a variety of contexts.

With some support, I can be part of a group. I am kind to others, can work or play co-operatively, and can build relationships with people of my choosing. I can identify when others need support and provide it. I am aware of how others may feel and take steps to help them feel included. I build and sustain positive relationships with diverse people, different generations.

	<p><a href="#"><u>When We Were Alone by David Alexander Robertson. 2016</u></a></p>	<p>Positive relationships with family / elders.</p>
